4K UHD with LED backlight

The 3840 x 2160 resolution of this LED backlight monitor delivers excellent detail, making it perfect for advanced 4K productivity and multimedia applications. LED backlight monitors also consume less power and last longer than those with CCFL lamps.

24/7 non-stop operation

Acer digital signage DV5 series is designed for long-term usage. Up to 50,000 hours of lifespan and auto cooling system make them have the ability to provide user 24/7 non-stop and reliable commercial display.

USB 2.0 Media player

DV5 series feature with USB 2.0 media player, allows you to get started quickly. You don't need to install any additional software on your signage. By simply connect it with USB device, DV5 series could then detect the playable file sorted into Music, Movie and Photo category

High brightness and color depth

With 500nits high brightness and 1.07B colors, Acer digital signage DV5 series are able to offer viewers a more engaging experience by crystal-clear images with true to life color.

Remote control

This feature provides the ability of remote control all displays via built-in RS232, RJ45 or the IR interface with unique software. User can select input source, turn on, control audio volume, check display's ID when creating video wall, let user have all power to control from one central location.

Scheduling

DV5 series allows you to program up to 7 different scheduled time intervals for the signage to activate. You could easily set the turn on/off schedule within a specific timing in a week with chosen playable content you want.

About Acer

Established in 1976, Acer is an information and communication technology company dedicated to the research, design, marketing, sale and support of innovative products that enhance people's lives. Acer's green supply chain delivers environmentally friendly PCs, displays, projectors, servers, tablets and smartphones — tools our customers need to explore beyond limits and experience more. Ranked No. 3 for notebooks globally (IDC 2012), Acer employs 8,000 people, and 2012 revenues reached US\$14.7 billion. Please visit www.acer.com for more information.
